

# May the (Aerodynamic) FORCES BE With YOU! - for the Serious Pilot.

Revisiting our training about the four forces of flight, and then "upping the ante" big time! This seminar is for the serious pilot, but everyone will enjoy it! Part two of this seminar will focus upon learning new things about the left turning forces that we as pilots face every day.

This is brand new for the Santa Monica area from Ron Berinstein.

**Directions:** First driveway going South past Airport Avenue (College Dr. - Traffic Light) Southeast corner of KSMO. Located inside the big green four story building on the first floor. Just enter through the front doors, and turn left at the first aisle. Room #123 will be to your right, at the end of the aisle. Plenty of free parking, BUT CAUTION: Head-In parking ONLY, otherwise you risk being ticketed.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
